●The lecture in advance from General Director Kitagawa

As the first program of the on-site tour, General Director Kitagawa Fram gave a lecture in advance.

In the lecture, there was an introduction to the historical background of the start of regional art festivals such as Setouchi Triennale, past initiatives and works on each island, and works of Oku-Noto Triennale 2023 held in Suzu City, Ishikawa Prefecture.

Director Kitagawa told the participants, "There are quite a few good artists coming out of the art festivals we have held so far. Everyone has potential, so I hope you will do your best. I think participating in an art festival becomes a rich experience in many ways. I have high hopes for you. In the proposal, I would like you to write mainly two points: what you really want to do and what you have done so far. It depends on whether you suggest something interesting. If it's interesting, we can discuss it together and make it happen."

* Originally, it was planned to post a video on the website, but we changed it to a summary.

Thank you for your understanding.
